JOB OFFER KTS ESG COORDINATOR

WELCOME IN KTS

We are the technology market leader in the global heat exchanger industry. Since 1920, we have been manufacturing heat exchangers for almost every conceivable industrial application and offer customized solutions for even the most complex environmental conditions.

Kelvion are looking for a true professional who brings practical experience in ESG / Sustainability management as well as highly efficient management skills. The task is to analyze and understand the existing ESG-structure in our group and, in a next step, improve this structure with the aim of an up-to-date but still pragmatic ESG system, which fulfills all legal obligations as well as customers', finance agencies' and other business partners' requirements. We expect a deep knowledge of the existing legislation, especially with regard to the EU Taxonomie (CSRD, ESRS, etc.). Support will be provided by local ESG managers, who will in their functions directly report to the Global ESG Coordinator.

REQUIREMENTS

- Excellent written and verbal communication skills, with the ability to simplify and effectively communicate complex ESG concepts to a variety of audiences.
- Ability to work independently and collaboratively in a fast-paced, global environment with multiple priorities and deadlines.
- Understanding of business management systems (environmental, health and safety and enterprise risk).
- Accurate, organized, autonomous, strict with time frame, reliable and with good leadership skills in a multi-cultural environment.
- Fluent English language

RESPONSIBILITIES

- Develop and support the company's ESG strategy by tracking KPI's and company targets. Support additional local ESG/HSE teams as required.
- Data analysis and interpretation: assist in collecting, managing and interpreting data related to relevant ESG indicators to track and understand current performance, identify gaps and areas for improvement.
- Track changes in ESG standards, assessments and rankings and KTS performance against our industry and relevant global leaders.
- Support the submission of the company's responses to client ESG surveys, as well as assessors and ranking bodies, including responding to CDP questions on climate change and water security, working with cross-functional teams and subject matter experts.
- Annual reporting: Manage and ensure annual production of the company's ESG / sustainability report to align with standard reporting frameworks.
- Collaborate with subject matter experts, communications and marketing teams to support the development of strategic ESG communication products.

OFFER

- Full-time and longterm cooperation
- Competitive salary
- Technical trainings, certificates, and upskilling if needed
- Employee benefits package
